

I am writing regarding expanding LPFM. I listen to K-Love radio in my car & house. Without it I'm not sure I would be here today. I've had several struggles over the past year and thought suicide was the only option left for me. I spoke with a pastor there and the staff prayed for me. I am now here today for my 11 year old child. I am getting involved with my community to help others in need. I would have the strength or courage to do that without K-Love. There are so many people that have been helped just from listening to the music and messages on K-Love, lives have been changed. To expand LPFM would take K-Love away from people who really need and enjoy it. It is good wholesome music for our children to listen to. The children are our future. We need to make sure they have an opportunity to enjoy the message that K-Love brings and let them experience God in their lives. They will become better adults and in turn our nation will be a better place to live. Please don't take K-Love away from me, my daughter, and every other person in America. Thank you.
